

PAIN POINTS & SOLUTIONS

- Governments must balance efficiency with taxpayer value — Columbia vehicles lower operating costs without sacrificing performance.
- Public agencies face sustainability mandates — 100% electric fleets reduce emissions and help meet compliance standards.
- Safety and reliability are non-negotiable — Columbia's purpose-built design ensures dependable performance for essential services.

CORE APPLICATIONS

- Move staff and equipment between facilities
- Support parks, recreation and maintenance departments
- Provide safe, sustainable transport for events and campuses

PRODUCT HIGHLIGHTS

- Available through OMNIA Partners for streamlined procurement
- Built for heavy-duty municipal operations
- Sustainable performance with low lifetime costs

KEEP ON MOVING FORWARD

HELPING GOVERNMENT FACILITIES NATIONWIDE

Government facilities nationwide trust Columbia vehicles for quiet, dependable service that keeps cities and public services running smoothly.

BUILT TO OUTWORK, OUTLAST AND OUTPERFORM

- From our 16-acre, 160,000-square-foot facility in Aiken, S.C., Columbia designs and builds electric vehicles that serve government, higher education, industrial, rentals and resorts and hospitality.
- As part of the Nordic Group of Companies, a family-owned American business founded in 1947, Columbia combines decades of manufacturing expertise with a relentless focus on performance, sustainability and partnership.
- Every vehicle features an all-steel chassis and corrosion-resistant construction for unmatched durability.
- 100% electric powertrains cut emissions and lower operating costs.
- Configurable beds, seating and enclosures deliver best-in-class versatility.
- Smart, efficient performance powers every move, tow and carry application.
- Columbia backs every model with over 75 years of electric vehicle expertise and nationwide dealer support.
