

PAIN POINTS & SOLUTIONS

- Communities need safe, quiet mobility — Columbia vehicles deliver smooth rides that fit perfectly into shared spaces.
- Residents and developers demand eco-friendly options — Electric fleets support green initiatives and community values.
- Managing multiple vehicles across a property requires reliability — Columbia fleets minimize downtime with purpose-built durability.

CORE APPLICATIONS

- Move residents and guests around gated or master-planned communities
- Support maintenance and amenities teams
- Carry cargo, tools, and supplies across property grounds

PRODUCT HIGHLIGHTS

- Quiet, eco-friendly operation
- Safe and comfortable for daily use
- Customizable for community-specific needs

TRANSPORT IN STYLE WITH TOMBERLIN

Engage GTZ

Unlike golf carts, Tomberlin LSEVs are built for the street. Safety, performance and styling engineered in from the start, not as add-ons or optional upgrades.

HELPING COMMUNITIES BE MOBILE NATIONWIDE

Communities nationwide trust Columbia vehicles for quiet, dependable service that elevates convenience and quality of life.

BUILT TO OUTWORK, OUTLAST AND OUTPERFORM

- From our 16-acre, 160,000-square-foot facility in Aiken, S.C., Columbia designs and builds electric vehicles that serve government, higher education, industrial, rentals and resorts and hospitality.
- As part of the Nordic Group of Companies, a family-owned American business founded in 1947, Columbia combines decades of manufacturing expertise with a relentless focus on performance, sustainability and partnership.
- Every vehicle features an all-steel chassis and corrosion-resistant construction for unmatched durability.
- 100% electric powertrains cut emissions and lower operating costs.
- Configurable beds, seating and enclosures deliver best-in-class versatility.
- Smart, efficient performance powers every move, tow and carry application.
- Columbia backs every model with over 75 years of electric vehicle expertise and nationwide dealer support.
