

BUILT FOR WORK. BACKED FOR LIFE.

The trusted leader in electric utility vehicles

The Columbia badge is worn by people of character and integrity, with the knowledge and insight to help customers prosper in the electric vehicle marketplace.

A HERITAGE OF HARD WORK

Columbia is part of the Nordic Group of Companies, a family-owned American business since 1946. The Nordic Group was founded by W.R. Sauey, the son of Norwegian immigrant parents. With a strong entrepreneurial spirit that still exists today, W.R. chartered the Nordic Group's first company, Flambeau, with an initial \$2,000 loan in 1947.

As a testament to the family's perseverance, determination and faith, the family-owned Nordic Group has grown into an international conglomerate with more than \$400 million in annual revenue. Their portfolio of companies spans the globe—from specialized plastics manufacturing, to hunting and fishing accessories, to heavy-duty over-the-highway and military vehicle seating, to electric commercial and industrial work utility vehicles and electric recreational low speed vehicles (LSVs)—and even the world's #1 Yo-Yo.

The Columbia Vehicle Group, headquartered at our 16 acre, 160,000 square foot manufacturing facility in Aiken, South Carolina, manufactures electric vehicles built for work in industrial, commercial and recreational environments. We engineer solutions that enhance productivity, comfort and utility while optimizing performance in transporting, carrying and towing—all with zero emissions. Our driving force is building constructive relationships that equip our partners for success.

Payloader Pro

Tackle jobs too big for a cart but too small for a truck. Features improved styling, driver and passenger ergonomics, and class-leading turning radius.

MOVE PEOPLE. CARRY CARGO. TOW LOADS.

Every vehicle in our lineup is engineered with one intention: to solve specific micromobility challenges across diverse industries. We help organizations:

- **Move People.** Quietly and safely shuttle guests, residents or teams across campuses and properties.
- **Carry Cargo.** Transport tools, equipment, food service and materials with customizable beds and decks.
- **Tow Loads.** Haul maintenance gear, refuse and trailers up to 18,000 lb (8165 kg).

CONFIGURED FOR THE WORK YOU DO

Every Columbia vehicle can be configured to match the unique demands of your operation. Choose from proven packages designed to serve real-world applications or work with us to develop a solution tailored to your team's workflow.

Standard Upfits

- Utility Beds & Toolboxes
- Dump Beds & Refuse Units
- Cabs & Vanboxes (enclosed or open)
- Passenger & Mobility Shuttles
- Flat Decks & Cargo Racks
- Branding & Paint Options
- Safety Packages (lighting, mirrors, cameras)

BUILT FOR PURPOSE. SIZED FOR EVERY JOB.

Tailored for ground crews. Secure, weather-ready space for tools, trimmers and debris across sprawling properties.

Utilitruck Van Box & Ladder Rack

Enclosed cargo protection in a tight, maneuverable package.

**IF YOU'VE DREAMED IT BUT DON'T SEE IT HERE,
THERE'S A GOOD CHANCE WE CAN BUILD IT.**

YOUR FLEET. YOUR DATA. YOU'RE IN CONTROL.

Columbia's T360 Smart Fleet connectivity gives fleet managers the real-time insights they need to monitor, manage and optimize their vehicle operations. Built for electric fleets of all sizes—including mixed-brand environments—this advanced telematics system offers location tracking, journey history, battery health monitoring, incident reporting and geofencing in one intuitive dashboard. Accessible via mobile app or browser, it delivers powerful decision-making data backed by dedicated factory-direct support and flexible installation options for both Columbia and non-Columbia vehicles.

Active Battery Monitoring

- Monitor your mixed-branded fleet's charge anytime, anywhere, even while in storage.
- Avoid surprises: Get notified before problems arise to maximize uptime.

Instant Fleet Location

- Real-time GPS tracking keeps you informed where your vehicles are at all times.
- Perfect for small properties to sprawling campuses, and everything in between.

Geofencing Alerts

- Receive instant notifications if a vehicle leaves (or enters) designated areas.
- Improves security for government, higher education and resort properties.

Journey & Route History

- View recent trips, routes and usage, all conveniently retrieved via mobile or desktop.

Unauthorized Motion Detection

- Even when powered off, Columbia T360 Smart Fleet detects and alerts you to movement.
- Reduce headaches knowing your fleet is always guarded and ready for service.

Service Reminders

- Automatic mileage-based notifications remind you when maintenance is due, extending fleet life and maximizing uptime.

Impact Event Notifications

- Be alerted if a potential impact event is detected, helping protect your investment and employees.

Seamless & Simple

- Easily upgrade any Columbia model
- Desktop Fleet Dashboard for multi-branded vehicle assets
- Smartphone-based app for iOS and Android

WHERE LIFESTYLE MEETS UTILITY

Tomberlin's luxury low-speed electric vehicles offer resort guests, gated communities and campus visitors a refined experience with street-legal confidence and eco-friendly electric power.

Unlike golf carts and personal transportation vehicles (PTVs), safety, performance and styling are seamlessly engineered into every Tomberlin LSV from the start, never as aftermarket add-ons or optional upgrades. Every Tomberlin LSV comes standard with a full suite of advanced safety features, because true peace of mind should never be optional.

Now, we've extended the Tomberlin Lifestyle Fleet with the Evoke e-Bike, a premium electric bicycle designed for effortless mobility and recreation. Featuring pedal assist, throttle control, and an extended battery range, the Evoke delivers quiet, stylish performance for communities, campuses and anywhere short-distance travel matters.

Key Features

- **Smarter, Longer-Lasting Power:** You'll go farther—up to 80 miles between charges—with the Evolve® L210 Ah, 10 kWh lithium battery smart power system.
- **Tomberlin 360™:** Wireless connectivity system that gives you real-time access, insight and security for your vehicle from your smartphone
- **Evoke® e-Bike:** Class 2 street-legal electric bike with front suspension, disc brakes and up to 50 miles of assisted range
- **Premium Comfort:** Plush seating, infotainment, reverse camera
- **Safety Built-in:** Fully integrated rear camera, industry-leading tubed chassis for superior protection, three-point automotive-style seat belts, NHTSA (National Highway Traffic Safety) compliance

Now part of Columbia's Lifestyle Fleet Solutions.
